

PRODUCT SPEC SHEET –MAPLE VENEER LOG – SKATEBOARD GRADE

Classification	Round Log
Species	Hard Maple (<i>Acer saccharum</i>)
Grade	Skateboard Grade - Rotary

Specifications

Minimum Diameter	35 cm
Minimum Length	2.5 meters

Grade Detail

This is a straight log with straight grain. It has centered heart. Logs are sound and will allow 1 to 2 small defects. Heart size is not a restriction. This log is a very good choice when solid maple veneer is needed, but it does not have to be white. Log is popular with manufactures of thick stock veneer for plywood production such as skateboard and snowboard decking, or dieboards.
